

1KW FM Broadcast Transmitter

Summary

- Frequency : 87-108MHz
- Output Power : 150W-1kW(Adjustable)
- Efficiency : $\geq 73\%$
- Size (W,H,D) : 483*178*500(mm)

Features

- 3U Cabinet, Compact in Size, Easy to Ship and Settle
- Modularized Design, Easy to Maintain
- High AC-RF Efficiency, above 70% within 87-108MHz
- Digital Audio Modulation Technology
- Built-in Synchronization Network Function
- Multiple Kinds of Audio Inputs, including Analog Audio, AES and SCA\
- Excellent Alarm Protection, such as over VSWR, over Voltage, over Current, over Temperature
- Intelligent Monitoring System, Remote Control and Fault Diagnosis by Computer via RS485 or TCIP / IP Interface
